2019 Nature Presentations at the Scheig Center with Rob Zimmer

Appleton Parks and Recreation

"Building communities and enriching lives where we live, work and play."

Appleton Parks and Recreation is excited to welcome Rob Zimmer, local radio host and nature/garden writer as he presents on seasonal nature topics.

ROB ZIMMER

Scheig Center
1313 E. Witzke Boulevard
Appleton, WI 54911

JANUARY 16: SNOW ANGEL

The snowy owls have returned to our area and Rob will give a beautiful presentation all about these incredible birds of prey, as well as tips for finding them on your own in the wild as they settle in for another winter season.

FEBRUARY 20: WINTER ROAD TRIPS FOR NATURE LOVERS

Winter is one of our most beautiful seasons and Rob will take you on a virtual tour around the state to some spectacular destinations for enjoying natural beauty this winter. From the Lake Michigan shoreline to frozen waterfalls and rich winter woodlands, you'll enjoy this journey through wild Wisconsin.

MARCH 13: SPRING MIGRATION

Enjoy an amazing look at the peak of spring waterfowl migration as thousands of tundra swans, sandhill cranes and five species of wild geese peak in our area during mid to late March. Rob will also share details of the upcoming sturgeon migration and spawning run along area rivers and waterways.

APRIL 17: WATCHING WARBLERS

Here in our area, it is possible to see up to 30 different species of colorful, vibrant wood warblers during spring migration in April and May. You'll learn how to identify these fun and colorful "butterfly birds, "as well as take a hike in the gardens and woodlands here on the property to seek them out, along with other newly arrived songbirds.

MAY 15: WILD FEAST

Rob will give a fun and exciting program about wild edible plants and how you can enjoy them in unexpected ways. We will also take a hike throughout the property to identify some of the wild edible plants found here.
